J. INSTRUCTION & LICENSING REQUIREMENTS

The following occupations are identified by a Standard Occupational classification (SOC) code established by the Office of Management and Budget or an Occupational Information Network O*NET-SOC code established by the Department of Labor available at <https://www.onetcenter.org/>

A. INSTRUCTION

1. Cosmetology Operator 1500 Clock Hours 12.0401

The Cosmetology Operator course utilizes the most comprehensive, up-to-date principles of teaching cosmetology. It offers a step-by-step, practical development of the subject matter to help lay the foundation for a better understanding of the nature of hair and skin as protein substances and the products used in professional beauty culture work. The cosmetology operator course of study is designed to prepare students for the state licensing examination and for entry level gainful employment. The knowledge and skills will help prepare our graduating students to keep pace with the new techniques which are developed and to prepare the student for work as a hair designer, salon manager, hair colorist, salon owner, product demonstrator, etc.

Document Awarded Upon Graduation

Upon completion of the Cosmetology Operator Course, and having met all graduation requirements and financial obligations, the institution will issue a diploma which will indicate the program of training has been satisfactory completed.

Compensation to be Reasonably Expected upon Graduation

Hairdressers, Hairstylists, and Cosmetologists working in Texas Statewide can expect to earn median cash salary of **\$22,023** or **\$10.59** per hour. The median wage is the 50th percentile wage estimate--50 percent of workers earn less than the median and 50 percent of workers earn more.

Half of the people in this job earn between \$17,433 (\$8.38 per hour) and \$30,088 (\$14.47 per hour) (i.e., between the 25th and 75th percentiles). **An entry level worker can expect to earn \$16,348 (\$7.86 per hour) while an experienced worker can expect to earn \$30,306 (\$14.57 per hour).**

Annual wages have been calculated by multiplying the hourly wage by a "year-round, full-time" hour's figure of 2080 hours. For those occupations where there is not an hourly wage published, the annual wage has been directly calculated from the reported survey data.

These estimates are based on 423 mail surveys of establishments in the area taken through November, 2009 and have a relative standard error of 2.40%. The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate

Job Duties and Responsibilities

See 1602.002 for the Definition of Cosmetology (Texas Department of Licensing & Regulations Law).

Physical Demands of the Profession

The successful practice of cosmetology usually requires careful eye and hand coordination. Cosmetologist and Cosmetology Instructors most often work at least 8 hours per day, most of the time on their feet and with their arms extended performing or demonstrating and correcting practical services.

Such work requires some physical strength and stamina. Persons suffering from back, leg or joint ailments should consult a physician to see if they are physically able to meet these requirements.

In addition, working both fields requires continuous exposure to a wide variety of hair and skin treating chemicals. Persons with allergies of any kind or sensitive skin or eye should consult a physician to see if chemical sensitivity many prohibit them form engaging in the profession.

In particular, prospective students who are pregnant should consult a physician to see if they can meet practical work requirements of the curriculum including chemical exposure before enrolling.

Safety Requirements

Working in the field of cosmetology presents its own dangers to students, cosmetologists and instructors. Safety requirements of the profession generally fall into three broad areas: Sanitation, chemical safety, and physical safety (Please note: the following tips will be expanded upon during your course of study—should you elect to become a student—and are not intended to be exhaustive). All programs are regulated by Texas Department of Licensing & Regulations (TDLR). Students are to comply with Sanitation rules outlined in Chapter 83.

A. Sanitation – See Texas Department of Licensing & Regulations, Chapter 83, Administrative Rules

Practitioners or students of cosmetology must keep their work areas and instruments sanitized and in good working order at all time. Failure to do so exposes both the practitioner or student and client to the dangers of disease or injury caused by infected or malfunctioning equipment.

It is particularly important in light of the threat of AIDS and the fact that cosmetology involves work with instruments that practitioners and students maintain their implements in a clean and safe manner. Any blood drawn by a cut or scrape should never be touched by exposed flesh in the course of administering first aid, and the offending instrument should be thoroughly inspected, cleaned of any body fluids and sanitized as soon as possible after the accident.

Failure to sanitize instruments properly also exposes the student, practitioner, or client to a wide variety of other diseases or parasites, such as ringworm or other fungus infections, head lice, etc.

B. Chemical Safety

Cosmetology work involves the use and/or exposure to a wide variety of chemical products.

Cosmetology students and practitioners are required to familiarize themselves with and follow the manufacturer's directions for proper use, to observe the manufacturer's precautions regarding the use of the product, and to consult with clients or patrons regarding any previous difficulties with the service or special needs.

In particular, cosmetology chemical products should never be placed in unlabeled containers, near any food storage area, nor left in place where children can have access to them.

C. Physical Safety

The requirements for physical safety are the most obvious, but quite often the most overlooked.

In general, all equipment should be well maintained and never used to perform any task for which it was not designed.

In addition, cosmetology implements are not toys and should not be treated as such. No horseplay or carelessness in the use of implements can be tolerated. Cosmetology implements should never be left where children have access to them.

2. Instructor 750 Clock Hours 12.0413

We believe that it takes more than good students and an advanced curriculum to produce an effective, progressive cosmetology school. It also requires well informed, highly skilled educators in the field of cosmetology. The key to achieving this goal is providing teachers with the proper educational support.

The fundamental role of an educator is to create an environment for effective teaching and learning. An effective cosmetology educator engages students in learning experiences that are up-to-date, accurate, and based on professional procedures used in the field of cosmetology.

The challenge of cosmetology teaching is to creatively adapt both to changing techniques in the field and to the diversity of learning needs in the classroom.

Document Awarded Upon Graduation

Upon completion of the Instructor Course, and having met all graduation requirements and financial obligations, the institution will issue a diploma which will indicate the program of training has been satisfactory completed.

Compensation to be Reasonably Expected upon Graduation

Cosmetology instructors usually earn a fixed salary, starting about the \$10.00 or \$20,800.00 a year.

Cosmetology instructors who become school managers usually Salary increases.

In addition, school staff (especially instructors and mangers) may receive compensation packages, including profit sharing, health benefits, paid vacation, sick leave, and holidays

Job Duties and Responsibilities

See 1602.002 for the Definition of Cosmetology (Texas Department of Licensing & Regulations Law).

Physical Demands of the Profession

The successful practice of cosmetology usually requires careful eye and hand coordination. Cosmetologist and Cosmetology Instructors most often work at least 8 hours per day, most of the time on their feet and with their arms extended performing, or demonstrating and correcting practical services.

Such work requires some physical strength and stamina. Persons suffering from back, leg or joint ailments should consult a physician to see if they are physically able to meet these requirements.

In addition, working both fields requires continuous exposure to a wide variety of hair and skin treating chemicals. Persons with allergies of any kind or sensitive skin or eye should consult a physician to see if chemical sensitivity many prohibit them form engaging in the profession.

In particular, prospective students who are pregnant should consult a physician to see if they can meet practical work requirements of the curriculum including chemical exposure before enrolling.

Safety Requirements

Working in the field of cosmetology presents its own dangers to students, cosmetologists and instructors. Safety requirements of the profession generally fall into three broad areas: Sanitation, chemical safety, and physical safety (Please note: the following tips will be expanded upon during your course of study—should you elect to become a student—and are not intended to be exhaustive). All programs are regulated by Texas Department of Licensing & Regulations (TDLR). Students are to comply with Sanitation rules outlined in Chapter 83.

A. Sanitation – See Texas Department of Licensing & Regulations, Chapter 83,

Administrative Rules

Practitioners or students of cosmetology must keep their work areas and instruments sanitized and in good working order at all time. Failure to do so exposes both the practitioner or student and client to the dangers of disease or injury caused by infected or malfunctioning equipment.

It is particularly important in light of the threat of AIDS and the fact that cosmetology involves work with instruments that practitioners and students maintain their implements in a clean and safe manner. Any blood drawn by a cut or scrape should never be touched by exposed flesh in the course of administering first aid, and the offending instrument should be thoroughly inspected, cleaned of any body fluids and sanitized as soon as possible after the accident.

Failure to sanitize instruments properly also exposes the student, practitioner, or client to a wide variety of other diseases or parasites, such as ringworm or other fungus infections, head lice, etc.

A. Chemical Safety

Cosmetology work involves the use and/or exposure to a wide variety of chemical products.

Cosmetology students and practitioners are required to familiarize themselves with and follow the manufacturer's directions for proper use, to observe the manufacturer's precautions regarding the use of the product, and to consult with clients or patrons regarding any previous difficulties with the service or special needs.

In particular, cosmetology chemical products should never be placed in unlabeled containers, near any food storage area, nor left in place where children can have access to them.

B. Physical Safety

The requirements for physical safety are the most obvious, but quite often the most overlooked.

In general, all equipment should be well maintained and never used to perform any task for which it was not designed.

In addition, cosmetology implements are not toys and should not be treated as such. No horseplay or carelessness in the use of implements can be tolerated. Cosmetology implements should never be left where children have access to them.

3. Esthetician 750 Clock Hours 12.0409

In recent years there has been a growing demand for skin care and makeup services. Some of these services require an Esthetician license, while others require a specialized training certification. Knowledge of esthetics and specializing study of beauty culture, is essential for a career specializing in facials. The Esthetician Course, while dealing with many of the same scientific subjects, concentrates on the health care and attractiveness of the skin and on the artistic use of cosmetics.

Document Awarded Upon Graduation

Upon completion of the Esthetician Course, and having met all graduation requirements and financial obligations, the institution will issue a diploma which will indicate the program of training has been satisfactory completed.

Compensation to be Reasonably Expected upon Graduation

Skin Care Specialists working in **Personal Care Services in Texas Statewide** can expect to earn median cash salary of **\$26,244** or **\$12.62** per hour. The median wage is the 50th percentile wage estimate--50 percent of workers earn less than the median and 50 percent of workers earn more.

Half of the people in this job earn between **\$20,563 (\$9.89 per hour)** and **\$36,215 (\$17.41 per hour)** (i.e., between the 25th and 75th percentiles). An **entry level** worker can expect to earn **\$17,870 (\$8.59 per hour)** while an **experienced** worker can expect to earn **\$35,548 (\$17.09 per hour)**.

Annual wages have been calculated by multiplying the hourly wage by a "year-round, full-time" hours figure of **2080** hours. For those occupations where there is not an hourly wage published, the annual wage has been directly calculated from the reported survey data.

These estimates are based on **63** mail surveys of establishments in the area taken through November, 2009 and have a relative standard error of **5.71%**. The relative standard error (RSE) is a measure of the reliability of a survey statistic. The smaller the relative standard error, the more precise the estimate

The manicuring business is more popular today than it has ever been. Many states have a separate license for Manicurists. Manicuring became a "big business" with the introduction of new products and services to strengthen and beautify the fingernails and, in some cases, the toenails. Nail wrapping and the application of artificial nails have been added to the service offered in beauty salons and also in spas.

An LOA must meet certain conditions to be counted as a temporary interruption in a student's education instead of being counted as a withdrawal. A LOA may only be granted if there is a reasonable expectation that the student will return from the LOA. Student must follow the institution's policy when requesting an LOA.

International students (SEVIS) must consider the consequences of a Leave of Absence according to their M-1 status.

A student's request for an LOA must not exceed 60 days in a 12-month period. The school must account for all weekends and periods of non-attendance. Example, an LOA ending on a Friday, student is to return on Saturday.

In order for a Leave of Absence request to be approved, the following elements must be considered:

- 1. Student must indicate reasons for which an LOA may be granted:**
 - a. Death in the family
 - b. Military Duty
 - c. Maternity Leave or Adoption
 - d. Serious Medical Condition and/ or Surgery
 - e. Professional Training
 - f. Car Accident
 - g. Domestic Abuse

The minimum days for an approved LOA is 10 calendar days. Students should not consider a Leave of Absence if their absence is expected to be less than 10 days.

 8. The student's graduation (contract period) will be extended by the same number of calendar days taken in the LOA and the changes will be done using an Enrollment Agreement Addendum, signed by student and school official. Official and Unofficial Withdrawal From School

If a student on an approved leave prior to the expiration of the leave notifies the school Executive Director in person and in writing that he or she will not be returning, the date of official notification will be used as a drop date.

Explanation of Consequences of Withdrawal to Loan Recipient

A student who is granted an approved LOA remains in an in-school status for Title IV loan repayment purposes. If a student on an approved LOA fails to return, the school must report to the loan holder the student's change in enrollment status as the withdrawal date.

One possible consequence of not returning from an LOA is that a student's grace period for a Title IV program loan might be exhausted. Therefore, in order for an LOA to be an approved LOA, prior to granting a Leave of Absence, a student who is a Title IV loan recipient will be counseled of the possible consequences a withdrawal may have on the student's loan repayment terms, including the exhaustion of some or all of the student's grace period. A student who has exhausted his or her grace period and is unable to begin repayment of a loan may apply for a deferment or forbearance or payment.

For Department of Veterans Affairs (DVA) purposes, VA students who do not return from an approved Leave of Absence will be reported to DVA within 5 days from the drop date.

Additionally, the Executive Director or Designee will provide written counseling to the student on the consequences that can occur with Title IV funds and consequences due to failure to return from a Leave of Absence.

Kit items and equipment are considered exclusively for the sole purposes of student's training and to be used for classroom activities and Student - Training Salon area in order to provide services and not for personal use or selling.

From time to time, vendors and suppliers may choose to alter, replace or discontinue items, which the institution at that time will make necessary adjustments as necessary.

All equipment is subject to manufacturer's warranties and replacement policies; the institution is not responsible for any exchanges or returns.

Periodically publishers update textbooks and workbooks in order to continue to meet industry standards and educational needs. Textbooks and workbooks newly published are subject to review and approval by the Corporate Office before making them available to the students through the student kit.

Students are responsible for bringing all necessary textbooks, kit items, equipment and supplies daily to the school. Kits are owned by the student at the time of completion of course and tuition is paid.

Student kits are issued based on Student Kit Disbursement Policy and Procedure. See Financial Aid Officer for complete policy.

Other methods include DARS and VA assistance.

If the student officially withdraws or is terminated by the school, the Texas Department of Licensing & Regulation (TDLR) refund policy will be used to determine charges owed.

Monthly Payments (with Title IV funding- Pell Grants and Loans)

A. FAMILY EDUCATIONAL RIGHTS & PRIVACY ACT (FERPA)

The Family Educational Rights and Privacy Act (FERPA) affords students and parents or guardians of dependent minor, certain rights with respect to their educational records. The rights of the parents or guardian of dependent minors transfer to the student when he or she reaches the age of 18. Students to whom the rights have transferred are "eligible students".

Although FERPA does permit a school to disclose a student's education records to his or her parents or guardians of dependent minor if the student is a dependent student under IRS rules, the institution's policy does not. Disclosure may not be made to the eligible student's parent or guardian of dependent minor even if the eligible student is a dependant of the parent or guardian of dependent minor as defined by the Internal Revenue Service.

The institution requires written consent from the student or parent or guardian of dependent minor (each time) before releasing any student information in response to a third party request, other than a request by NACCAS, unless otherwise required by law.

These rights are:

(1) The right to inspect and review the student's education records maintained by the school within 45 days of the day the institution receives a request for access.

Parents or guardians of dependent minor or eligible students should submit to the School Executive Director, Financial Aid department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The record must identify the parties who requested the information and their legitimate interest in the information. The disclosure Authorization Form must be maintained as long as the records themselves are maintained.

All institution records are maintained safeguard of loss, theft, identity theft or damage.

B. INTERNAL GRIEVANCE POLICY AND PROCEDURE

In accordance with the institution mission statement, this institution will make every attempt to resolve any student's grievance that is not frivolous or without merit. Grievance procedures will be included in the school catalog and in the new student orientation, thereby assuring that all students know the steps to follow should they desire to register a grievance at any time. Evidence of final resolution of all grievances will be retained in the school files in order to determine the frequency, nature, and patterns of grievance for the institution. The information will be used in evaluating institutional effectiveness and outcomes. Records of grievances and their resolution, as applicable, are retained according to the school's record keeping policy. The following procedures outline the specific steps of the grievance process.

1. A student, teacher, or interested party may file a grievance against the school: however, the grievance should be in writing to the Instructor/ school director and should outline the allegation or nature of the grievance. Students interested in filing a formal grievance may request the form with the Instructor or Executive Director.
2. A school representative will meet with the complainant within 10 days of receipt of the written grievance. Depending on the extent and nature of the grievance, interviews/ surveys with the appropriate staff and other students may be necessary to reach a final resolution of the grievance. If after careful evaluation, the problem cannot be resolved through discussion, the grievance will be referred to the school grievance committee. The school will document the meeting between the school representative and complainant in writing. The complainant will be provided a copy of the written record at the time of the meeting.
3. The committee will be comprised of at least three individuals that may be the following categories: school director, administrator, instructor, or member of the public interest or student. The grievance committee will meet within 21 calendar days of receipt of the grievance and review the allegations. If more information

from the complainant is needed, a letter should be written outlining the additional information needed.

4. In case of extreme conflict, may be necessary to conduct an informal hearing regarding the grievance. The hearing will occur within 60 days of the committee appointment. The hearing will be informal with the complainant presenting his/her case followed by the school response. The hearing committee will be allowed to ask questions of all involved parties. Within 15 days of the hearing, the committee will prepare a report summarizing each witness, testimony and recommend a resolution for the dispute. Corporate management shall consider the report and either accept, reject, or modify the recommendations of the committee.

5. If the complainant wishes to pursue the matter further, a grievance form is available through the accrediting agency (National Accrediting Commission of Career Arts & Sciences, Inc.). For address see school catalog. The complainant is required to try to resolve the problem through the school's grievance process, prior to filling a grievance with the accrediting agency.

C. RETURN OF TITLE IV FEDERAL FUNDS

Disbursement of Funds

When a recipient of Title IV grant or loan assistance withdraws from an institution during a payment period or period of enrollment in which the recipient began attendance, the institution must determine the amount of Title IV grant or loan assistance that the student earned as of the student's withdrawal date. For our Institution that is required to take attendance the last day of attendance is the withdrawal date.

Hours Earned

The earned amount of Title IV grant or loan earned is determined by dividing the scheduled hours thru last day attended by the hours in the payment period. If the student has completed more than 60% of the payment period, 100% of the funds are earned.

If a student earns less than 60% of the funds, the difference is returned to the loan or Pell Grant Program.

Post-Withdraw Disbursements for Loans

If a post-withdrawal loan disbursement exists the institution must notify the student in writing requesting the student's or parent's permission, to receive the funds. The student or parent will be advised in writing within 30 days of determination of withdrawal. If the student is due a post-withdraw loan disbursement of the federal education loan, in the information a school provides to a student that he or she is due a post withdraw loan disbursement, the school will include information about the advantages of keeping loan debt to a minimum. Post-Withdraw Disbursements applies only to loans.

Failure to respond within 14 days, no disbursement will be made. A post-withdrawal exists when the student is eligible to receive funds but the funds have not been disbursed when the student withdraws. A letter of notification is sent to the student when funds are returned either to the Loan Program or to the parent in case of a PLUS loan. The notification must be clear that if the student or parent do not respond to the notification, within time frame, the school is not required to make the post-withdraw disbursement.

If a student or parent submits a timely response accepting all or a portion of a post withdraw disbursement, per the student's or parent's instructions, the school must disburse the funds within 120 days of the date of the institution's determination that the student withdrew.

Grant Overpayments

The application regulation requires that the students repay only 50% of the initial amount of any Title IV Grant funds. Within 45 days of determining that the student who withdrew must repay all or part of the Title IV grant, a school must notify the student within 30 days that he or she must repay the overpayment or make satisfactory arrangements to repay it. In its notification a school must inform the student that:

1. The student owes any overpayment of Title IV funds.
2. The student's eligibility for additional Title IV funds will end if the student fails to take a positive action by the 45th day following the date the school sent or was required to send notification to the student.
3. There are positive actions a student can take to extent his or her eligibility for Title IV funds beyond 45 days:
 - a. The student may repay the overpayment in full to the school.
 - b. The student may sign a repayment agreement with the school.
 - c. The student may sign a repayment agreement with the Department.
4. If the student fails to take one of the positive actions during the 45 day period, the student's overpayment immediately must be reported to the Borrowers Service for Collection.
5. The student should contact the school to discuss his or her options.

Title IV Refund Order

Order of return of Title IV funds for unearned funds will be as follows:

- Unsubsidized Federal Stafford Loans
- Subsidized Federal Stafford Loans
- Federal Plus Loans received on behalf of the student
- Federal Pell Grants

Time frame for the return of Title IV funds will be no later than 45 days after the date of the Institution's determination the student withdrew.

Official and Unofficial Withdrawal

The Institution will determine the withdrawal date for a student who withdraws without notification as 14 days from last day attended. Official notification from withdraw student will be used if received prior to the 14 days from last day attended.

Leave of Absence (LOA) Withdrawal

A student on a leave of absence will be dropped as of the first day scheduled to return from a leave of absence if the student does not return from the leave.

If a student on an approved leave of absence notifies school prior to the expiration of the leave that he or she will not be returning, the date of notification will be used as a drop date. The school will utilize the date that the notification is hand delivered to the school official as the official cancellation date.

All calculations are done through the last day of attendance.

D. COLLECTION POLICY

The institution attempts to collect debt owed by means of a collection agency. Below you may find pertinent information regarding this procedure:

Delinquent Graduates or Withdrawn or Terminated Students have ten (10) business days as of the date of notification mailed to pay the balance or make payment arrangements satisfactorily with the Corporate Business/ Finance Office or their account will be referred to SARMA Collection Agency and Credit Bureau.
